

MINI BOT

AN INTELLIGENT SERVICE ROBOT
DRIVEN BY THE TALEMATE PLATFORM

Create. Connect. Combine. **The Unthinkable.**

THE CHALLENGE

Continuously manning a reception area, providing permanent reception services to clients, or guiding them through your showroom while offering up-to-date information are time and personnel consuming. These tasks require a large, trained staff with access to all available company data, information, and calendars.

The **Mini Bot driven by the Talemate Platform offers the solution.** This robot can receive clients, provide correct and up-to-date information and guide the client through the company and/or showroom, all while collecting data, alerting the necessary people and presenting your company as an innovative business.

The Mini Bot guarantees **a first-class interactive experience, reducing the need for reception staff** and automatically using all available data.

*The Mini Bot is the ideal service robot to facilitate reception tasks, collect information and boost your innovative image. Powered by the **Talemate Platform** it is easy to use and deployable in every scenario.*

THE TALEMATE OFFER

With the intelligent service and reception robot, you can automatically receive and guide clients while interacting with them.

The Mini Bot detects the presence of people and takes the initiative to greet and interact with them. Thanks to the **cutting-edge navigation system and state-of-the-art voice and visual capabilities**, obstacles or unexpected circumstances pose no challenge. Furthermore, additional smart technological tools can seamlessly be integrated in the process.

The Orionstar Mini Bot is guided and controlled by the Talemate Platform software, a 'no-code' system that can be used without technical skills to create, automate and easily adapt any process or scenario.

Unique features:

- Receive and welcome a client upon arrival and match the client with a registered appointment in any linked agenda.
- Request a client to fill in a questionnaire and collect any relevant data.
- Guide the client to a meeting in your company building, including the use of lifts and automatic doors.
- Give a presentation on the company or its assets.
- Distant video controlling of your visitors and reception area or showroom.
- Signal a smart coffee maker to prepare a coffee upon request of the client
- ...

Talemate offers a full package, upgrading your reception of clients to a new and innovative level and offering you endless new opportunities for interaction with them.

In this package

HARDWARE

An intelligent service robot of the highest quality, by Orionstar, immediately deployable at your reception.

The hardware can be purchased or leased.

SOFTWARE

The no-code **Talemate Platform** software to control, guide and steer your robotics solution.

*The **Talemate Platform** installation is bought once and the software remains operational under a monthly licensing fee arrangement.*

TRAINING

A short, comprehensive training to use and operate the **Talemate Platform** in combination with your robotics.

An on-site training session and remote support is included in the purchase or lease.

Technical specifications

HARDWARE

- Reliable passability
- Large 14-Inch HD Screen
- 6-Mic Circular Array
- HD Wide-Angle Dual Camera
- Hi-Fi Subwoofer
- Self-charging, Cycle service
- Size: 410*410*1000 mm - 21 Kg
- Cruising Time: 12h
- Charging Time: 4h

SOFTWARE

- Guiding, controlling and linking robotics, IoT and metaverse
- Cloud based
- Autonomous navigation with unlimited mapping and POI'S
- Fully open API
- MQTT-compatible (multiple brokers)
- Multi language support
- No-code: used without technical skills
- Integration with IoT devices

Prices

HARDWARE

- Purchase Mini Bot: TBD
- Leasing Mini Bot: TBD/month for 36 months (incl. **Talemate Platform** licence and monthly **Talemate Platform** fee)

SOFTWARE

- Purchase **Talemate Platform** licence: TBD
- Monthly **Talemate Platform** fee: TBD
